

VOLTA POWER SYSTEMS

# CLASS B KITS

## LEVEL 3: OFF THE GRID

### COMPATIBLE WITH:

MERCEDES  
SPRINTER

DODGE  
PROMASTER

FORD  
TRANSIT

### Performance:

Cut the cord to shore power, and enjoy true freedom for days at a time with the Level 3: Off-Grid kit. The 13.5 kWh storage pack provides all the energy you need for cooking, bathing and digital entertainment all while running your A/C through the night. Recharge when you drive or through the included solar controller.

### Solar Friendly

The system's powerful charger and fast-charge acceptance makes it a good fit for solar charging (optional) to best utilize the day's peak sunny hours.

### OBJECTIVES:

- Overnight air-conditioning and more\*
- Freedom from shore power tether
- 20% more power to run everything while driving
- Easy installation
- Solar controller included

### VALUE:

- Equivalent to 24 traditional lead acid batteries @ 50% DOD
  - (most Class B's come with only 1-2)
- 1/6th the weight to lead equivalent
- Lasts the lifetime of the vehicle
  - (maintains 80% capacity even after 2000 cycles or 10+ years)
- 3 year warranty
- No maintenance
- Place in non-traditional areas within vehicle
- Automotive-based technology
- Light weight (Approx. 220 lbs)
- No fumes
- Cold Storage Capability (3 mo. @ -20°C or 1 yr @ -5°C)

### SYSTEM INCLUDES:

- 13.5 kWh (12.1 kWh usable) VIP pack with charge request command
- 3600 Watt Pure Sine inverter charger w/ display
- 8,000 W under hood generator with controller
- 40 amp 14.4V power supply
- Complete wiring harness
- SOC gauge
- Remote lighted on/off button
- -30 C heating pads, wrap and control box
