

VOLTA POWER SYSTEMS

CLASS A KITS

LEVEL 4: LUXURY

Performance:

Our top-of-the-line system for luxury RV owners, the Level 4 kit provides all the power you need to run 3x A/C units, fridge, entertainment systems and virtually any appliance all day or night. The system features seamless switchover and charging from generator, shore or our underhood alternator. Built on two state-of-the-art energy storage packs, the system is redundant and maintenance free.

Environmentally Friendly:

Reduce your impact on natural spaces by enjoying your RV with fewer emissions and without the disruption of a noisy generator. What's more, the system's powerful charger and fast-charge acceptance make it a good fit for solar charging.

OBJECTIVES:

- Three air conditioners overnight*
- Power three A/C's, fridge, and all appliances
- High end performance no switch over annoyances
- Redundancy
- Zero maintenance
- Simple integration

VALUE:

- Hours of quiet, off-grid time
- Full electric (eliminates propane)
- Environmentally friendly, reduces emissions
- Equivalent to ≈74 Group31 lead acid @ 50% DOD
- 1/6th the weight to lead
- 10+ year life expectancy
- 10 times faster charging
- 3-year warranty
- Eliminate generator or reduce size by 50%
- Pack redundancy
- Solar ready
- Can be stored in cold climates

SYSTEM INCLUDES:

- Two - 20.2 kWh VSP packs; ability to add 2 more packs
- Junction box with charge request PLC & dual alt
- Three - 3600 Watt inverter chargers w/ displays
- CAN J1939 output
- 20,000 W engine generation w/ controllers
- 110 amp 12V converter
- MPPT 600 solar controller
- SOC gauge
- Remote lighted on/off button
- 0 C heating pads and control boxes
