VOLTA POWER SYSTEMS

AIR CONDITIONING SYSTEM

RUN YOUR VEHICLE'S A/C AND COMPRESSOR EQUIPMENT FOR HOURS WITHOUT IDLING

WORKS WITH ANY OE FACTORY A/C SYSTEMS

Works with any vehicle factory A/C, enables upfitters and is customizable to each OE.

SAVES COST

Reduces fuel consumption and lowers engine maintenance costs.

ANTI-IDLING A/C

Complies with all federal, state and local workplace idle mitigation and noise restrictions. Uses less fuel and reduces vehicle emissions.

COMFORTABLE & SAFE

Increases operator comfort and improves occupant safety.

USER-FRIENDLY

Simple installation and low system weight.

COMPONENTS INCLUDED:

- Compressor
- Motor Controller
- Wiring Harness
- Cooling Fans
- MISC Controllers

COMPRESSOR SPECIFICATIONS

Voltage	58 V (51 Nominal)
Refrigerant	R134a
Application	OE A/C Conversions
Capacity	Low range (1700-3700 BTU/hr) to high range (4800-19700 BTU/hr) and everything in between
Weight	< 15 lbs
